*johnson_garrett@hotmail.com*

## TECHNICAL SKILLS

*HTML, CSS, SASS, JavaScript, PHP, Git, Bootstrap, jQuery, WordPress, Shopify, Microsoft Visual Studio, Adobe CC (Photoshop, Premier Pro, Illustrator), Microsoft Office, Google Suite, Google Analytics, Elementor*

## PROFESSIONAL EXPERIENCE

### Freelance Work

*Web Developer*                                                    *January 2022 – Present*

As a freelance web developer and designer, I have taken the initiative to find and contact clients in need of web solutions. I have provided complete, end-to-end solutions which start with the client's needs and end in a fully implemented solution that works for them while maintaining consistent and transparent communication throughout the process. Designing, building and optimizing websites has developed my experience in understanding new languages, frameworks and libraries that allow me to exceed my client's expectations. My portfolio and work are available at https://www.garrettjohnson.ca.

### Capital Restaurant

*Server*                                                          *November 2015 – Present*

Working part-time as a server since I began University has not only financially allowed me to obtain a Bachelor's Degree but also has given me the opportunity to develop the skills and techniques needed to further my career as a Web Developer and strengthen my skills and techniques through freelance work. I am very experienced in customer service and the ability to thrive in high-pressure situations where there are deadlines that must be met every minute in order to achieve a quality service. These skills are easily transferred to any other position; whether it be communicating externally with a client, internally with team members, or keeping track of and making sure all project deadlines are met.
